I am hopeful that we have thanked Tom Quinn for his input, without commenting upon the input provided!

Jeff

I didn't access the BB inbox for a few days last week due to holiday and weather, and we actually got one non-form letter a week ago. Coincidentally, it is from Tom Quinn, who provided me with all the salmon photos last week after the referral from Dan Rinella. This letter is addressed to me, but is really for the project. How would you like to handle it? CMS?

Subject: Re: [epa\_bristolbay] Keeping you informed about EPA's watershed assessment?

Judy,  
Thank you very much for this update. After pondering the matter at length I decided to write something down for the record. Could you please accept the attached letter and include it in whatever compendium you have of public and scientific input?  
I thank you for considering this request,  
Thomas Quinn  
University of Washington
